- ABBBS *see* Australian Bird and Bat Banding Scheme
- Aboriginal peoples *see* Indigenous Australians
- acclimation of fishes 280–2
- acoustic monitoring 69, 75–80, 125, 307, 309–10, 467, 536
- animal treatment, withdrawal, euthanasia 79
- considerations for bats 78
- considerations for birds 78
- considerations for frogs 78
- equipment and maintenance 79
- qualifications, experience and training 79–80
- welfare considerations 76
- workplace safety 80
- acoustic tagging and monitoring (marine and freshwater mammals) 75, 522, 526
- acoustic transmitters 251–2, 272, 470, 473, 521, 529, 531, 536, 538, 549
- aerial surveys 96–106, *see also* drones; helicopters; fixed-wing aircraft; visual observations, counts and searches of birds; visual observations of marine mammals and reptiles
- aerial telemetry 98–9
- alpha tags *see* visible implants for marking reptiles and amphibians
- aluminium box traps 108–19
- amphibians *see* frogs and toads
- anaesthesia 360–4
- animal treatment, withdrawal, euthanasia 362
- dosage calculation 362
- drug selection 361
- equipment and maintenance 363
- general procedures 361–2
- inhalational (gaseous) 362
- route of administration 361
- qualifications, experience and training 363
- welfare considerations 360–1
- workplace safety 363
- analgesia and antibiotics 368–70
- animal treatment, withdrawal, euthanasia 369
- equipment and maintenance 369
- general procedures 368–9
- qualifications, experience and training 369
- welfare considerations 368
- workplace safety 369–70
- animal-borne shock collars 224–5
- animal ethics committees (AEC) 6, 19–27
- adverse events 27
- amendments 26
- applications 7, 22–5
- approvals 6, 7, 13, 15, 26, 34, 51, 75, 201, 205, 234, 465, 469, 506
- competencies 16
- death as an endpoint 13
- experimental design 13–14
- framework 4–5, 19
- general guidelines 4–5, 7, 15, 19, 20, 62, 219, 319, 363
- introduced species 2, 15, 30, 292
- member categories 6, 20–2
- publications 13, *see also* ARRIVE guidelines; ARROW; HARRP qualifications 14, 20–1
- reporting 26–7
- research ethics legislation 4–8
- statistical design 7–14, 21–2
- terms of reference 19–20
- transparency 16, 20, 23–4, 32, 34
- veterinary assistance 22
- Australian Code for the Care and Use of Animals for Scientific Purposes 4, 5–6, 7, 15, 16, 19–23, 33, *see also* the Code
- invertebrates 513
- permits 7–10
- policies and codes of practice 7
- use of animals 4–8, 13–16, 19, 21, 29–30, 34, 37
- animal signs and traces *see* visual signs and traces
- animal welfare 2–3, 4–6, 9, 11–17, 19–27, 29–37, 40–1, 378–9, 381, 409, 414, 425, 429, 433, 439, 441, 448, 451–2, 463, 465, 472, 483, 499, 502, 506, 513, 516, 531, 536, 548, 569, 572, 602
- antibiotics 368–70
- arboreal pipe traps 109–10, 119, 463
- archival loggers/transmitters 272–3, 277, 522, 524, 533, 549, 552, 556, 571
- ARRIVE guidelines 11, 13
- ARROW 13
- arthropods *see* crustaceans
- Australian bat lyssavirus 125, 363, 374, 444, 448
- Australian Bird and Bat Banding Scheme (ABBBS) 124, 317–18, 323, 331, 335, 338, 341, 343, 345–9, 351, 353–4, 441, 447, 586, 595, 613
- Australian Code for the Care and Use of Animals for Scientific Purposes, *see also* animal ethics committees, research ethics legislation
- replacement, reduction and refinement 7, 11–13, 36
- aversive conditioning *see* aversive odours and chemicals; disruptive stimuli; electric stimuli (fences, collars shields); guardian animals
- aversive odours and chemicals 220–4
- animal treatment, withdrawal, euthanasia 222–3
- equipment and maintenance 223
- general procedures 222
- qualifications, experience and training 223
- welfare considerations 220–2
- workplace safety 223–4
- baited remote underwater video stations (BRUVs) 235, 270–1, 280, 308, 487, 491, 536
- bal-chatri traps 332, 334–6, 597
- ballistics 364, 365, 468
- bandicoots 32, 45, 51, 62, 63, 66, 85, 404–7, 429, 565
- anaesthesia 407
- biology and behaviour 405
- blood collection 372, 407
- capture and handling 108–9, 405–7
- characteristics 404–5
- euthanasia 407
- infectious pathogens 407
- marking 150–1, 153, 158, 160, 169–70
- tracking 191–4
- banding, *see also* Australian Bird and Bat Banding Scheme (ABBBS)
- for bats 441, 447
- for birds *see* tagging birds (individual and cohort)
- barotrauma 258–62, 269, 521, 524, 526, 531, 536
- bats (mega) 14–15, 57, 59, 100, 105, 112, 215, 437, 445–9, 593
- acoustic recording 75–7
- anaesthesia 447
- biology and behaviour 447
- blood collection 447
- capture and handling 108, 119–25, 446–7
- characteristics 445
- euthanasia 447
- infectious pathogens 125, 363, 374, 378, 447–8
- marking 150, 153, 168
- tracking 185
- bats (micro) 14, 32, 57, 59–61, 105, 215, 437–44, 593
- acoustic recording 75–8, 84
- anaesthesia 444
- biology and behaviour 438
- blood collection 372, 444
- capture and handling 108, 119–25, 438–43
- characteristics 437–8
- euthanasia 444
- infectious pathogens 125, 363, 374, 378, 444
- marking 150–1, 153, 160, 168, 441–2
- tracking 185, 191–4
- beak grab technique for birds 329–30
- belts and harnesses 180, 190–1, 194, 348, 351–3, 596, *see also* telemetry devices attached with belts and harnesses; telemetry of marine mammals and reptiles
- bilbies 45, 63, 66, 85, 404–7

- anaesthesia 407
 biology and behaviour 405
 blood collection 372, 407
 capture and handling 108–9, 405–7
 characteristics 404–5
 euthanasia 407
 infectious pathogens 407
 marking 150–1, 153, 158
 tracking 192
- biological sampling (lethal) marine fishes (teleosts) and chondrichthyans 262–6
 equipment and maintenance 265
 euthanasia of teleosts at sea with chemicals 263–4
 euthanasia of chondrichthyans at sea with chemicals 264
 euthanasia using physical methods at sea 264
 physical euthanasia of teleosts and small chondrichthyans 264–5
 physical euthanasia of large chondrichthyans 265
 qualifications, experience and training 265
 welfare considerations 263
 workplace safety 265–6
- biological sampling (non-lethal) marine fishes (teleosts) and chondrichthyans 266–71
 animal treatment, withdrawal, euthanasia 268–9
 blood sampling 268
 epidermal mucus swabs 267
 equipment and maintenance 269–70
 qualifications, experience and training 270
 stomach content collection 268
 ultrasound and endoscopy 268
 welfare considerations 267
 workplace safety 270
- biological sampling and marking of marine mammals and reptiles 242–9
 blood sampling 247–8
 body morphometrics and condition 245–6
 body tissue 248
 collecting biopsies post-capture 246–7
 equipment and maintenance 249
 invasive biopsy 244–5
 marking animals post capture 246
 nesting turtles and eggs 248–9
 non-invasive biopsy 243–4
 qualifications, experience and training 249
 welfare considerations 243
- biopsies 156, 368, 416, 482, 545
 and ear tags 156–7, 161–2
 of bats 442–3
 of marine mammals and reptiles 242–7, 466–7
 darting 235, 244
 fin clips in fishes 267–8, 270, 545
- birds (passerine) 584–9
 anaesthesia 588
 biology and behaviour 584–5
 blood collection 588
 capture and handling 585–8
 characteristics 584
 euthanasia 588
 infectious pathogens 588–9
 marking 586
 tracking 586
- birds (sea) 234, 317–24, 555, 599, 603–7
 anaesthesia 607
 biology and behaviour 605
 blood collection 607
 capture and handling 605–7
 characteristics 603–5
 euthanasia 607
 infectious pathogens 588–9, 607
 marking 346–7, 606
 tracking 351–4, 607
- birds (wetland) 599–603
 anaesthesia 602–3
 biology and behaviour 600–1
 blood collection 603
 capture and handling 328–31, 601–2
 characteristics 599–600
 euthanasia 603
 infectious pathogens 603–4
 marking 601–2
 tracking 602
- birds, research methods for *see* call playback and broadcast surveys for birds; capture of birds (ground frequenting flocking birds and shorebirds); capture of birds (individual birds); capture of birds (medium-large ground dwelling birds); capture of birds (simple and hand-based methods); capture of birds (small ground dwelling birds and shorebirds); colonial nesting birds at breeding grounds, monitoring and collection of; mist nets, harp traps and trip lining for birds and bats; nest and hollow inspections for birds; tagging birds (individual and cohort); telemetry of birds; visual observations, counts and searches of birds; visual signs and traces of birds, observation and collection of
- blood collection and processing 370–4
 animal treatment, withdrawal, euthanasia 373
 blood smears 373
 equipment and maintenance 373–4
 haemostasis 372
 needle dimensions 371
 pain and distress during procedure 370
 physiological considerations 370
 preparation of site 371
 qualifications, experience and training 374
 tubes 373
 vein selection 372
 welfare considerations 370
 workplace safety 374
- boat-based work 8–9, 42, 88, 234–43, 249–50, 258–61, 266–7, 271–83, 289–303, 305–6, 309, 313, 316, 321, 328, 330, 364–5, 467, 470, 482, 533, 563–8, 578, 606
- box traps
 for terrestrial animals 108–18
 for freshwater fish 295–6
- branding 243
 broadcast surveys *see* call playback
 BRUVs *see* baited remote underwater video stations
- burrow counts (birds) 321
 burrows 42–3, 51–2, 62–9, 88, 98, 113, 319–23, 324, 326, 328, 353, 355, 381, 384, 390–2, 395–8, 401–7, 423, 433, 454, 459, 463, 487, 490, 493, 507, 525–7, 568, 575, 577, 605–6, 609, *see also* dens
- bustards 611–14
 anaesthesia 613
 biology and behaviour 612
 blood collection 613
 capture and handling 612–13
 characteristics 611
 euthanasia 613
 infectious pathogens 613–14
 marking 613
 tracking 613
- by-catch 120, 241, 243, 258–60, 266, 289–90, 292–3, 295, 297, 300, 302, 304–6, 328, 332, 336–8, 343, 521, 524, 531, 553, *see also* non-target species
- cage traps 32, 50, 109–18, 125, 133, 139, 143, 304, 335–6, 393, 395, 397, 402–9, 414–15, 429, 431, 433, 451–2, 454, 457–8, 601, 606, 610
- call playback and broadcast surveys for birds 204, 317–19, 410, 587, 594–5
 animal treatment, withdrawal, euthanasia 319
 broadcast surveys for detection and behaviour response studies 318
 equipment and maintenance 319
 playback for capture 318
 playback for influencing site selection 319
 qualifications, experience and training 319
 welfare considerations 317–18
 workplace safety 319
- call playback for arboreal mammals and amphibians 80–3
 animal treatment, withdrawal, euthanasia 82
 considerations for frogs 82
 considerations for mammals 81–2
 equipment and maintenance 82
 general procedures 81–2
 qualifications, experience and training 82
 welfare considerations 80–1
 workplace safety 82
- camera trapping 11, 13, 29, 32, 43, 50, 52, 60, 64, 69, 75–6, 83–5, 87, 92, 113, 127–8, 144–5, 158, 189–90, 205, 214, 223, 317, 323, 393–4, 397, 425, 487, 587, 590, 601
 animal treatment, withdrawal, euthanasia 84
 baiting 84
 equipment and maintenance 84–5
 illumination 84
 route of passage 84
 qualifications, experience and training 85

- welfare considerations 83–4
- workplace safety 85
- cannon nets 341, 344, 591, 601, 606
- capture methods (aquatic) *see* capture of
 - freshwater turtles, snakes and platypus;
 - capture of marine fishes and chondrichthyans; capture of marine mammals and reptiles
- capture methods (birds and bats) *see* capture of birds (ground frequenting flocking birds and shorebirds); capture of birds (individual birds); capture of birds (medium-large ground dwelling birds); capture of birds (simple and hand-based methods); capture of birds (small ground dwelling birds and shorebirds); mist nets, harp traps and trip lining for birds and bats
- capture methods (terrestrial) *see* corral and pen traps for capturing ungulates; draw-string traps for capturing macropods; foothold trapping for eutherian carnivores; funnel, cage, aluminium box, pitfall and pipe traps; hook and net capture for arboreal mammals; stunning and netting for capturing wombats; targeted searches for reptiles and amphibians
- capture of birds (ground frequenting flocking birds and shorebirds) 341–6
 - animal treatment, withdrawal, euthanasia 344
 - cannon nets 341–6
 - equipment and maintenance 344
 - qualifications, experience and training 344
 - welfare considerations 342–4
 - whoosh nets 341–6
 - workplace safety 344–6
- capture of birds (individual birds) 335–8
 - animal treatment, withdrawal, euthanasia 337
 - bow trap 335–8
 - clap trap 335–8
 - equipment and maintenance 337–8
 - hoop trap 335–8
 - Larsen and other drop-in traps 335–8
 - qualifications, experience and training 337
 - Swedish goshawk trap 335–8
 - tip-top/top entrance traps 335–8
 - treadle cage trap 335–8
 - welfare considerations 336
 - workplace safety 338
- capture of birds (medium-large ground dwelling birds) 338–41
 - animal treatment, withdrawal, euthanasia 340
 - corral traps 338–41
 - crow traps 338–41
 - drive traps 338–41
 - equipment and maintenance 341
 - funnel (baited) traps 338–41
 - qualifications, experience and training 341
- welfare considerations 339–40
- workplace safety 341
- capture of birds (simple and hand-based methods) 328–32
 - animal treatment, withdrawal, euthanasia 331
 - beak grab 329
 - equipment and maintenance 331
 - hand capture 329–30
 - hand net 330
 - individual foot/leg noose 329
 - net gun/net launcher 330
 - qualifications, experience and training 331

- conditioned taste aversion 221–3
- dyes 150, 154, 160, 169–70, 347–9, 425, 441, 459, 487
- glues 442
- lead and other toxicants 326, 373, 507, 563, 564, 566, 572, 595–6

- nitrile 135, 165, 498, 502
 pentobarbitone 378, 383, 385, 392, 395, 397, 404, 407, 410, 417, 426, 430, 432, 434, 444, 447, 452, 455, 463, 468, 471, 477, 489, 492, 500, 596, 611, 615
 powders 195–7
 pyrethroids 111
 tracking *see* telemetry
 tracks 32, 35, 42, 50–3, 56–7, 197–8, 339, 521
 transects 43, 45–9, 52, 54, 57, 64, 98–9, 308, 313–14, 325
 transmitters and chemi-tags secured with
 adhesives 191–4
 animal treatment, withdrawal, euthanasia 194
 equipment and maintenance 194
 qualifications, experience and training 194
 welfare considerations 192
 workplace safety 194
 trapping fish and tadpoles 294–8
 animal treatment, withdrawal, euthanasia 297
 box traps 295–6
 drum nets 296–7
 equipment and maintenance 297
 fishway traps 297
 light traps 297
 qualifications, experience and training 297
 welfare considerations 294–5
 workplace safety 297
 trawling 244, 259–60, 291, 514, 521, 531, 533, 536
 treadle cage traps 109–10, 322, 335, 414, 457
 tree climbing 60, 62, 324, 326, 415, 589
 tree-shaking 130–1, 133
 trip lining 119–24, 439
 turtles 35, 100–1, 202, 233–6, 246, 248–9, 296, 307, 480, 490–6, 555
 anaesthesia 492
 biology and behaviour 490–1
 blood collection 247–8, 492
 capture and handling 236–7, 241–2, 288–9, 292–3, 295, 297, 303–7, 491–2
 characteristics 490
 euthanasia 492
 infectious pathogens 493
 marking 152–3, 165, 174–6, 491
 tracking 184, 191–2, 242–3, 245, 247, 249–51
 ungulates (marine) *see* cetaceans and dugongs
 ungulates (terrestrial) 45, 100, 211, 213–15, 216, 224, 429, 450–3, 601, 605
 abundance estimation 96–9
 anaesthesia 364–7, 451–3
 biology and behaviour 450–1
 blood collection 370–2, 452
 capture and handling 117, 125–30, 364–7, 451
 characteristics 450
 euthanasia 452
 infectious pathogens 448, 453
 marking 154–7, 453
 tracking 185–6, 453
 unmanned aerial vehicles (UAVs) *see* drones
 ultrasound 216, 245, 267–8, 552, 556
 underwater visual census (UVC) 235, 308
 urban wildlife 31–2, 185, 201, 203, 223, 328, 337, 429, 431, 445, 453, 589, 594, 600, 607, 610
 varanids *see* lizards
 veterinary procedures 360–74, *see also*
 anaesthesia; analgesia and antibiotics;
 blood collection and processing; chemical immobilisation
 visible implant alphanumeric (VIA) tags *see* visible implants
 visible implant elastomer (VIE) tags *see* visible implants
 visible implants 162–7, 174–6, 487, 502, 508, 537–8, 562, 569
 visible implants for marking reptiles and amphibians 162–7
 animal treatment, withdrawal, euthanasia 167
 equipment and maintenance 162, 167
 general procedures 164–7
 qualifications, experience and training 167
 welfare considerations 163–4
 workplace safety 167
 visual observations, counts and searches of birds 313–17
 animal treatment, withdrawal, euthanasia 316
 equipment and maintenance 316
 qualifications, experience and training 316
 welfare considerations 314
 workplace safety 317
 visual observations of freshwater animals 307–10
 animal treatment, withdrawal, euthanasia 309
 equipment and maintenance 309
 qualifications, experience and training 309
 welfare considerations 307–8
 workplace safety 309
 visual observations of marine mammals and reptiles 233–6
 animal treatment, withdrawal, euthanasia 234
 equipment and maintenance 236
 qualifications, experience and training 236
 welfare considerations 234
 workplace safety 236
 visual observations of terrestrial wildlife 42–5
 animal treatment, withdrawal, euthanasia 44
 equipment and maintenance 44
 qualifications, experience and training 44
 welfare considerations 43
 workplace safety 45
 visual signs and traces of birds, observation and collection of 354–6
 animal treatment, withdrawal, euthanasia 356
 equipment and maintenance 356
 general procedures 355–6
 qualifications, experience and training 356
 welfare considerations 354–5
 workplace safety 356
 visual signs and traces, observation and collection of 50–7
 animal treatment, withdrawal, euthanasia 56
 equipment and maintenance 56–7
 qualifications, experience and training 57
 welfare considerations 51–2
 workplace safety 57
 voucher specimens 30–4, 51, 108, 263, 392, 556, 563, 566, 572
 waders *see* birds (wetland)
 wallabies *see* macropods
 warren and burrow ripping 63, 66–7, 402
 waterbirds *see* birds (wetland)
 watercraft *see* boat-based work
 wedgefish *see* Rhinopristiformes
 wetland birds *see* birds (wetland)
 whales *see* cetaceans
 whoosh net 341–2, 590
 wild dogs *see* dingoes and other wild dogs
